Dear sir/madam,

I am writing to express concern regarding the installation of 'Smart Meters' for scrutinizing uses of electrical power. There has been no instruction to the public concerning these new devices, nor enough study regarding the emission of RF harmful radiation from these devices. They seem to be way too intrusive into the lives of citizens. 'Big Brother' attitudes and intrusion are repulsive, to say nothing of being illegal according to our laws of freedom.

One study also indicates there is nothing to prohibit the utilities from selling the information accrued from these insidious instruments. Privacy be damned.

I urge you to put a stop to these controlling devices and the rapid erosion of freedoms in AZ.

Thank you.
